PROFILE SUMMARY

Software Engineering student (3rd year) with hands-on full-stack and mobile experience. Strong foundation in object-oriented programming and software design, with practical exposure to Android Studio and Xcode. Built secure, scalable apps in React Native and Node.js with well-documented APIs, validation, and CI/CD workflows. Eager to apply development and testing skills toward enterprise-grade applications.

TECHNICAL SKILLS

Languages	Python, Java, JavaScript/TypeScript, HTML/CSS
Frontend & Mobile	React, React Native, Tailwind, Expo, Android Studio/Xcode (exposure)
Backend & Cloud	Node.js, Express, Firebase (Auth, Firestore, Functions, Hosting), Postman
Tools & Practices	Git/GitHub, CI/CD, code reviews, input validation

EDUCATION

Honours Bachelor of Engineering in Software Engineering

Expected 2027

York University, Toronto

Selected Courses: Data Structures & Algorithms, Advanced OOP, Operating Systems, Computer Architecture, Database Management Systems

Selected Projects:

- **York Scheduling Tool** — Built a full-featured course scheduling web app using React, Node.js, and Express, enabling students to plan semesters, add friends, and view shared schedules collaboratively.
 - Worked across a team of 4 following agile practices (meetings, Git branching, pull request reviews).
 - Implemented authentication and user data storage in a SQL database.
 - Built friends list and privacy settings, enabling users to manage visibility and collaborate securely.

RELATED WORK EXPERIENCE

Full Stack Developer

Apr 2025 – Present

Vexo Labs, Remote

- Built full-stack features for a finance app using React Native, Node.js, and Firebase, supporting multi-budget tracking and real-time updates.
- Implemented secure server-side logic (webhook verification, validation, and role-aware flows), improving reliability and reducing client-side risk.
- Designed and documented RESTful APIs integrating Plaid for live financial data with consistent error handling and data reconciliation.
- Migrated sensitive logic from client-side to server-side functions, improving scalability.
- Translated Figma designs into fully functional, interactive full-stack pages and modals.

ADDITIONAL PROFESSIONAL EXPERIENCE

Parts Advisor

Apr 2024 – Present

Canadian Tire, Vaughan, ON

- Delivered accurate technical guidance while supporting technicians and customers under time constraints.
- Demonstrated strong communication, reliability, and time management while maintaining high work hours alongside full-time studies.

Seasonal Computer Sales Specialist

Jul 2023 – Jan 2024

BestBuy Canada, Brampton, ON

- Advised customers on computers and peripherals, simplifying technical concepts for non-technical users.
- Developed interpersonal and problem-solving skills through customer interactions in a fast-paced environment.
